

Finishing accessories

FINISHING BOARD

- This finishing element is designed to frame the decking.
- Finishing boards are brushed on one side and one edge. The brushed side is to be laid with this side visible. The 138 mm board has two straight edges: it must be secured with the special composite screws. The 180 mm board has one straight edge and one machined edge to accommodate the clip. It can be secured on one side by a screw and on the other by a clip.
- Dimensions (mm): 138 x 23 x 4000 and 180 x 23 x 4000.
- Colours in 138 mm and 180 mm:
 - 4 Elegance board colours
 - 6 Atmosphere board colours

NON-SLIP INSERT (ALUMINIUM AND EPOXY RESIN)

- Accessory which clips in like a board between two decking boards. Complies with all non-slip requirements (e.g. securing a slope or an access for persons with reduced mobility in a public space).
- Dimensions (mm): 45 x 23 x 2000.

INVISICLIP

- A very discreet black rubber accessory, this option conceals the clip.
- Dimensions (mm): 10 x 10 x 50.
- Packet of 30 units.

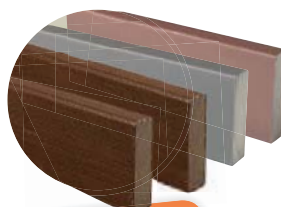

ALUMINIUM CORNER PROFILE

- Finishing accessory designed to finish off the edge of your decking.
- Dimensions (mm): 37 x 74 x 2000.

FASCIA BOARDS

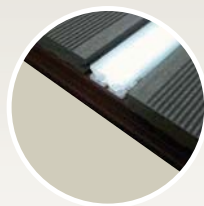

- Fascia boards are brushed on one side and one edge. The brushed side is to be laid with this side visible. This accessory will set off your decking.
- Dimensions (mm): 70 x 20 x 2000.
- Available in all Elegance, Emotion and Atmosphere board colours.
